

What can we do for you?

an
independent company
you can trust

Camlab Ltd is a UK based company based in Cambridge since 1950. As an employee benefit trust, all employees own a stake in the company and are shareholders of the business.

We believe that good business is about building positive personal relationships.

Our core values of Choice, Service and Trust encompass the way we deal with our customers, suppliers and each other.

experts
in water testing
& monitoring

Camlab's reputation and experience has been built over the last 60 years supplying, repairing and maintaining all types of laboratory products .

We provide a wide choice of leading brands for use by Hospitals, Research labs, Utility companies and the manufacturing sector.

We are also a major supplier to the water testing sector, specialising in on-line monitoring, analytical equipment, water test kits, reagents and consumables.

on-site
engineering support
& instrument repairs

Our fully equipped workshop supports our field based engineers across the UK, ensuring rapid response and fast turn-around times.

Live web support and a direct technical hotline, offer real time advice and solutions to our customers.

Our on-line service network allows quick access to, instruction manuals, next service dates, calibration certificates, product information and frequent problem solving information.

A close-up photograph of a human eye with a green iris. The pupil is reflecting a small globe of the Earth. The text "personal advice & professional consultation" is overlaid in white on the eye.

personal advice
& professional
consultation

Over 50% of our employees have a technical qualification with real laboratory or engineering experience.

You can talk to our team about the latest products, from a single item through to a complete new laboratory design.

We endeavour to simply guide you through the process, providing alternative solutions based on our technical knowledge and expertise.

innovative products
that reduce time
& waste

Camlab is committed to doing our part to help protect the environment.

We actively seek new innovative products and suppliers which support these ideals.

Our staff are engaged in an internal 'continuous improvement' program to significantly reduce waste and energy. We want to engage with our customers to reduce our carbon footprint and our impact on the world.

powered
by the latest
operating technology

Our recent investments in the latest logistics and service software, combined with our advanced on-line technology, allow us to provide a fully integrated solution for our customers.

Advanced bar-coded system ensures, batch control, serial number tracking and a 99.97% stock accuracy.

ARIBA and OB10 punch-out technology, allows seamless integration to our customers purchasing and supply systems reducing overall processing costs.

find, order &
save online

With over 10,000 products to choose from you can find everything you need. Simply check stock availability and buy online .

We have designed our website in conjunction with our customers to let you control your own account, consolidate payment and set purchase limits for users within your organisation.

Log in to track your orders, view purchase history, retrieve quotes, and service contract details.

UK manufacturing &
worldwide
sourcing and supply

With over 120 overseas dealers we are exporting our products and expertise all over the world.

We manufacture specialist ranges of laboratory plastics, and advanced adhesive labelling systems.

Along with our on-line sales and quotation capability, our specialist Export team are able to provide consolidated laboratory packages including all relevant technical, scientific and legal documentation for a complete laboratory installation.
