3M™ 7500 Series Reusable Respirators

Exceptional quality
& unrivalled
comfort

3M 7500 Series Reusable Respirators

The real test for a respirator is how comfortable you feel working in it. We believe that the 3M 7500 series half mask respirators are the most comfortable half masks on the market. The soft and extremely pliable facesseal material provides a more comfortable fit and fewer pressure points on the face and head of the wearer.

3M™ 7500 Series Reusable Half Masks

3M 7500 series reusable half masks have set a new standard in comfort. The 3M™ Cool Flow™ Exhalation Valve reduces breathing resistance, helping to minimise heat build-up in the mask and increasing your comfort.

Available in three sizes, all masks have the 3M Bayonet Attachment System offering a broad range of twin lightweight filters to protect against gases, vapours and particulates depending on your individual needs and can also be used with 3M™ Supplied-Air Systems.

Features and Benefits:

Head Harness

- + Balanced, secure fit
- + Reduced pressure and tension points
- + Drop Down feature for added convenience during breaks
- + Designed to fit well with 3M Head and Eye protection

Facepiece

- + Soft silicone material for comfort and durability
- + Thin nose bridge area for more comfort

3M Cool Flow Exhalation Valve

- + Less exhalation resistance
- + Easier breathing
- + Less heat and sweat build-up
- + Downwards flow of exhaled air
- + Stays clean

Filter Connection

- + Twin filter design provides better weight distribution and more balanced fit
- + Improved peripheral vision
- + Safe and secure fit
- + Optical marking of attachment point
- + The Bayonet fitting system for gas, vapour and particulate filters
- + Optional 3M S-200 supplied-air system

Low-Profile Design

- + Minimises interference with field of view
- + Minimised dirt-traps
- + Reduced fogging with eye protection
- + Sleek look and feel

Fits well with

- + Eyewear from 3M
- + Hearing Protection from 3M

Plus

- + Full range of filters available
- + Three colour coded sizes for easier identification
- + Fully maintainable
- + Low weight of 136 grms.
