In the absence of the customer's own form of certificate, all questions on this form must be completed by a responsible member of staff PRIOR TO ANY WORK BEING STARTED BY CAMLAB PERSONNEL.

Please note that Camlab personnel are strictly instructed to NOT work on any equipment which may have been exposed to hazardous materials until proper decontamination procedures have been completed. Camlab reserve the right to levy a charge, at current rates, for any time lost and other costs incurred as a result of this requirement not being met.

Decontamination Declaration:

Please specify if the equipment has been exposed internally or externally to any of the following:-
 Blood, body fluids pathological specimens, Biodegradable material which may become a hazard, Radioactive substances, Chemicals or substances hazardous to health, Other hazards/biohazards

Please provide details of any hazards including names and quantities of hazardous materials as appropriate

Method of decontamination

Are there likely to be any areas of residual contamination?

Fault description, please give as much detail as you can

Privacy Policy & Agreement

I understand that by signing this form, this information will be retained for a maximum of 7 years and will only be used for the purposes intended it will not be passed to any third party unless there is a legal reason or work purpose to do so. I declare that the above information is true and complete to the best of my knowledge and belief and that decontamination procedures used are appropriate to the potential hazard.
