Camlab Limited – Material Safety Data Sheet

1. Identification Product Code 1110317 ACETONE pure Product Name (CH₃)₂CO =58.08 Molecular Formula 67-64-1 CAS Number CAMLAB LIMITED Supplier: Norman Way Industrial Estate Over Cambridge England CB4 5WE 01954 233110 Phone 01954 233101 Fax 08:00-17:00 01954 233110 Emergency Telephone 24hr 112

(Have this document to hand)

2. Composition

Acetone 67-64-1 200-662-2 > 99.0% F Xi : R11,R36,R66,R67	Exp (See 8.1)
Acecone 07-04-1 200-002-2 7 99.0% F AI . KII,K50,K00,K07	WEL

3. Hazards Identification

Highly flammable. Irritating to eyes. Repeated exposure may cause skin dryness or cracking. Vapours may cause drowsiness and dizziness.

4. First Aid Measures		
Eyes	Irrigate thoroughly with plenty of water for at least 10 minutes, holding the eye open. OBTAIN MEDICAL ATTENTION.	
Skin	Wash off skin thoroughly with water. Remove contaminated clothing immediately and wash before re-use.	
Inhalation	Remove from exposure. Keep warm and at rest. If there is difficulty in breathing give oxygen if available. If breathing stops or shows signs of failing, apply artificial resuscitation. If unconscious place in the recovery position. OBTAIN MEDICAL ATTENTION URGENTLY.	
Ingestion	If conscious give plenty of water to drink. Do not induce vomiting. If there is difficulty in breathing give oxygen if available. If breathing stops or shows signs of failing, apply artificial resuscitation. If unconscious place in the recovery position. OBTAIN MEDICAL ATTENTION URGENTLY.	

5. Fire Fighting Measures Hazards Evacuate area immediately. Keep up wind. Avoid exposure to toxic vapours and fumes. Fire-fighters should wear protective clothing and breathing apparatus. Vapour-air mixtures are explosive. Extinguishing Water spray, foam, dry powder or carbon dioxide. Use water spray to keep fire exposed containers cool.

Unsuitable Do not use water jet. Media

Camlab Limited – Material Safety Data Sheet

6. Accidental Release Measures		
Personal Protection	Ensure no sources of ignition. Avoid breathing vapour. Use approved personal protective equipment. Evacuate area immediately. Do not allow general use of area until it is safe to do so. Beware : vapour is heavier than air and will tend to accumulate at low spots.	
Enviromental	Keep material out of sewers, storm drains, surface waters and soil. Notify the Environmental Agency and local Environmental Health Officer if major spillage occurs.	
Major Spillage	Contain and absorb on inert material. Transfer absorbent to salvage container for removal. Wash area down with copious amounts of water.	
Minor Spillage	Contain and absorb on inert material. Transfer absorbent to container for removal. Allow solvent to evaporate in remote area, then dispose of absorbent as solid chemical waste. Wash area down with copious amounts of water.	

7. Storage & Handling

Handling Precautions	Avoid contact with skin and eyes. Do not breath vapours. Do not allow to contaminate clothing.
	Ensure Local Exhaust Ventilation maintains vapour concentrations below the recommended limits.
Storage Conditions	Well ventilated, cool, dry storage . Protect from direct sun and store away from sources of ignition. Keep containers closed when not in use. Keep well separated from oxidising agents.

8.1 Workplace Exposure L	.imits			
Workplace Exposure Limits	Long Term (8hr TWA):	500.0	ppm	1210 mg m-3
	Short Term (15min Period):	1500	ppm	3620 mg m-3

8.2 Personal ProtectionRespiratoryUse L.E.V. or natural ventilation to maintain vapour concentrations below exposure limits.
If not, use a well maintained chemical cartridge organic vapour respirator, or use self
contained breathing apparatus.HandsUse solvent resistant gloves.EyesUse chemical splash proof glasses or goggles.SkinAvoid contact with skin. If skin contact or contamination of clothing is likely, protective
clothing must be worn.

9. Physical & Chemical Properties

Appearance	Clear colourless liquid.
Odour	Pungent.
рН	Not available
Boiling point	56.4 °C
Melting point	94.7- °C
Flash point	18.0- °C(Closed cup)
Upper Flammable Limit	12.8 %
Lower Flammable Limit	2.6 %
Auto Ignition	465.0 °C
Explosive properties	Severe in confined spaces.
Oxidising Properties	No.
Vapour Presure	185 mmHg @ 20'C
Relative Density	0.7972
Water Solubility	Completely soluble in water.

10. Stability & Reactivity

Chemical Stability	Stable under normal conditions
Conditions to Avoid	Hot surfaces, naked flames or other sources of ignition.
Materials to Avoid	Strong oxidising agents. Sulphuric acid. Nitric acid. Alkalis.

10. Stability & Reactivity (continued)

Hazardous Decomposition Products None unusual. Burning will produce smoke, carbon monoxide and/or carbon dioxide.

11. Toxicological Information		
Eyes	Both the vapour and liquid may, produce conjunctival irritation and corneal damage.	
Skin	Unlikely to be an irritant on brief or occasional exposure. Repeated or prolonged contact may defat the skin producing irritation and dermatitis. Unlikely to be absorbed across the skin in harmful amounts.	
LD50 Skin	Rabbit 20g/Kg	
Ingest	Low order of acute toxicity. Ingestion of large amounts will produce gastrointestinal irritation. and central nervous system depression, leading to unconsciousness. Aspiration during swallowing or vomiting may injure lungs.	
LD50 Ingest	Oral Rat 9750 mg/Kg	
Inhalation	Exposure to vapour concentrations above the occupational exposure limits will produce irritation of the eyes and respiratory tract. High concentrations of vapour may produce central nervous system depression and unconsciousness.	
Carcinogenicity	Not considered to be a carcinogen.	
Mutagenicity	Not considered to be a mutagen.	
Reproductive Effects	Exposure of pregnant women to 30mg/m3 and 300 mg/m3 produced embryotropic effects ranging from high lipid values to embryotoxic effects respectively.	

12. Ecological

Readily biodegradable in the environment. 76% degraded after 10 days in fresh water.

13. Disposal Considerations

Disposal Methods Dispose of in a licensed incinerator for organic solvents. Do not dispose of as domestic waste. Never dispose of into water courses or sewerage systems due to high risk of explosion. Contaminated Packaging Use a licensed waste disposer. Do not attempt to burn any residual liquids due to risk of explosion.

14. Transport Information

Proper Shipping Name UN Number	Acetone 1090
UN Classification	3 Flammable liquid
Subsidiary Risk	None
Flash Point	18.0- °C(Closed cup)
Packing Group	II
Transport Category	2
Marine pollutant	No
ADR Hazard ID	33

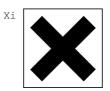

15. Regulatory Information

F

Labelling Classification Highly Flammable, Irritant.

Label Symbols

15. Regulatory Information (continued)

Risk & safety Phrases Highly flammable. Irritating to eyes. Repeated exposure may cause skin dryness or cracking. Vapours may cause drowsiness and dizziness. Keep out of reach of children. Keep container in a well ventilated place. Keep away from sources of ignition - No Smoking. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

EEC Number 200-662-2

16. Other Information

Document Information This document has been prepared in accordance with directive 88/379/EEC.

The information contained in this document only covers the hazards presented by this material, it DOES NOT constitute a workplace risk assessment.
