Camlab Limited – Material Safety Data Sheet

1110535

| 1 | Identification | ł |
|---|----------------|---|
| | achtmoation | 1 |

| Product Code | 1110535 |
|---------------------|---|
| Product Name | NITRIC ACID 70% w/w A.R. |
| Molecular Formula | HNO ₃ =63.01 |
| CAS Number | 7697–37–2 |
| camlab | CAMLAB LIMITED Norman Way Industrial Estate Over Cambridge England CB4 5WE |
| Phone Fax | 01954 233110 01954 233101 |
| Emergency Telephone | 08:00-17:00 01954 233110 24hr 112 (Have this document to hand) |

2. Composition

| Component | CAS No | EEC No | Conc w/w | Classification & Risk Phrases | Exp (See 8.1) |
|-------------|-----------|-----------|----------|-------------------------------|---------------|
| Nitric acid | 7697-37-2 | 231-714-2 | 70.0% | O C : R8,R35 | WEL |
| | | | | | |

Contact with combustible material may cause fire. Causes severe burns.

3. Hazards Identification

|--|--|

 4. First Aid Measures

 Eyes
 Irrigate thoroughly with plenty of water for at least 10 minutes, holding the eye open. OBTAIN MEDICAL ATTENTION URGENTLY.

 Skin
 Wash off skin thoroughly with water. Remove contaminated clothing immediately and wash before re-use. OBTAIN MEDICAL ATTENTION URGENTLY.

 Inhalation
 Remove from exposure. Keep warm and at rest. If there is difficulty in breathing give oxygen if available. If breathing stops or shows signs of failing, apply artificial resuscitation. If conscious place in a sitting position. OBTAIN MEDICAL ATTENTION URGENTLY.

 Ingestion
 If conscious give plenty of water to drink. Do not induce vomiting. If unconscious place in the recovery position. OBTAIN MEDICAL ATTENTION URGENTLY.

| 5. Fire Fighting Measures | | |
|---------------------------|---|--|
| Hazards | Evacuate area immediately. Keep up wind. Avoid exposure to toxic vapours and fumes. Fire- fighters should wear protective clothing and breathing apparatus. May evolve toxic fumes if involved in a fire. | |
| Extinguishing Media | Consider what other flammable materials are present and act accordingly. | |
| Unsuitable Media | Nothing specified. | |

| 6. Accidental Release Measures | |
|--------------------------------|--|
| Personal Protection | Avoid breathing vapour. Use approved personal protective equipment. Evacuate area immediately. Do not allow general use of area until it is safe to do so. |
| Enviromental | Keep non-neutralised material out of sewers, storm drains, surface waters and soil. Notify the Environmental Agency and local Environmental Health Officer if major spillage occurs. |
| Major Spillage | Contain and absorb on inert material. Transfer absorbent to salvage container for removal. Wash area down with copious amounts of water. |
| Minor Spillage | Neutralise spill with soda ash, lime, calcium carbonate or sodium bicarbonate. Wash area down with copious amounts of water. |
| 7. Storage & Handling | |

| Handling Precautions | Avoid contact with skin and eyes. Do not breath vapours. Do not allow to contaminate clothing. |
|----------------------|---|
| | Ensure Local Exhaust Ventilation maintains vapour concentrations below the recommended limits. |
| Storage Conditions | Well ventilated, cool, dry storage . Keep well separated from acids, metals, explosives, organic peroxides and ignitable materials. |

8.1 Workplace Exposure Limits

| Component | CAS No | Workplace Expos | sure Limits | Maximum Ex | posure Limits |
|-------------|-----------|-----------------|-------------|------------|---------------|
| | | Long Term | Short Term | Long Term | Short Term |
| | | ppm mg m–3 | ppm mg m–3 | ppm mg m–3 | ppm mg m-3 |
| Nitric acid | 7697-37-2 | 2.000 5.200 | 4.000 10.00 | | |

8.2 Personal Protection

| Respiratory | Use L.E.V. or natural ventilation to maintain vapour concentrations below exposure limits. If not, use a well maintained chemical cartridge respirator, or use self contained breathing apparatus. |
|-------------|--|
| Hands | Use PVC gauntlets. |
| Eyes | Use chemical splash proof glasses or goggles. |
| Skin | If skin contact or contamination of clothing is likely, protective clothing must be worn. |

9. Physical & Chemical Properties

| Appearance | Clear colourless to pale yellow fuming liquid. |
|-----------------------|--|
| Odour | Suffocating and irritating. |
| pН | 1 @ 20 °C |
| Boiling point | 122.0 °C |
| Melting point | 42.0- °C |
| Flash point | Not available |
| Upper Flammable Limit | Not available |
| Lower Flammable Limit | Not available |
| Auto Ignition | Not available |
| Explosive properties | No. |
| Oxidising Properties | A strong oxidising agent. |
| Vapour Presure | 9 mmHg @ 20 C |
| Relative Density | 1.4200 °C |
| Water Solubility | Completely soluble in water with moderate increase in temperature. |
| | |

10. Stability & Reactivity

| Chemical Stability | Stable under normal conditions |
|-------------------------------------|---|
| Conditions to Avoid | No specific conditions. |
| Materials to Avoid | Reducing agents. Alkalis. Many organic compounds. Combustible materials. |
| Hazardous Decomposition Products | Not flammable but will assist a fire, producing irritant and toxic fumes of oxides of nitrogen. |

| 11. Toxicological | Information |
|----------------------|---|
| Eyes | The vapour is be extremely irritating to eyes and can cause chemical eye burns. Damage can range from severe irritation and corneal scarring to permanent blindness. |
| Skin | Both the vapour and liquid will, cause severe burns. The liquid or concentrated vapour will cause immediate severe and penetrating burns. Concentrated solutions will cause deep burns and yellow discolouration of the skin. Dilute solutions will be irritating to the skin. |
| LD50 Skin | Not available |
| Ingest | Ingestion may prove fatal. Ingestion will cause severe mouth burns, and if swallowed extensive damage to the oesophagus. Symptoms may include salivation, thirst, difficulty in swallowing, pain, shock and vomiting. |
| LD50 Ingest | Not available |
| Inhalation | Exposure to vapour concentrations above the occupational exposure limits will produce irritation of the eyes, nose, throat and respiratory tract. Prolonged exposure to vapour concentrations above the occupational exposure limits may have serious effects with initially no pathological signs. Further exposure may cause acute pulmonary oedema often with a serious outcome. |
| Carcinogenicity | Not considered to be a carcinogen. |
| Mutagenicity | No information is available. |
| Reproductive Effects | None identified. |

12. Ecological

Acidic, nutrient for undesirable algae.

13. Disposal Considerations

Disposal Methods

Dilute in a large excess of water and carefully neutralise with soda ash, then wash to drain with copious amounts of water.

Contaminated Packaging Use a licensed waste disposer. Wash out containers with water.

14. Transport Information

15. Regulatory Information Labelling Oxidising, Corrosive. Classification Label Symbols 0 С Risk & safety Phrases Contact with combustible material may cause fire. Causes severe burns. Keep locked up and out of reach of children. Do not breath vapour. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. Wear suitable protective clothing. In case of accident or if you feel unwell, seek medical advice immediately (show the label).

EEC Number

16. Other Information

Document Information This document has been prepared in accordance with directive 88/379/EEC.

The information contained in this document only covers the hazards presented by this material, it DOES NOT constitute a workplace risk assessment.
