1. Identification

1111440 Product Code

PROPAN-2-OL HPLC Product Name

 $(CH_3)_2$ CHOH = 60.10 Molecular Formula

67-63-0 CAS Number

Supplier:

CAMLAB LIMITED

Norman Way Industrial Estate Over Cambridge England CB4 5WE

01954 233110 Phone 01954 233101 Fax

08:00-17:00 01954 233110 Emergency Telephone

> 24hr 112 (Have this document to hand)

2. Composition

Component	CAS No	EEC No	Conc w/w	Classification & Risk Phrases	Exp (See 8.1)
Propan-2-ol	67-63-0	200-661-7	> 99.7%	F Xi : R11,R36,R67	WEL

3. Hazards Identification

Highly flammable. Irritating to eyes. Vapours may cause drowsiness and dizziness.

4. First Aid Measures

Irrigate thoroughly with plenty of water for at least 10 minutes, holding the

eve open. OBTAIN MEDICAL ATTENTION.

Skin Wash off skin thoroughly with water. Remove contaminated clothing immediately and wash

Inhalation Remove from exposure. Keep warm and at rest. If there is difficulty in breathing give

> oxygen if available. If breathing stops or shows signs of failing, apply artificial resuscitation. If unconscious place in the recovery position. OBTAIN MEDICAL ATTENTION

Ingestion If conscious give plenty of water to drink. Do not induce vomiting. If there is difficulty

in breathing give oxygen if available. If breathing stops or shows signs of failing, apply artificial resuscitation. If unconscious place in the recovery position. OBTAIN MEDICAL

ATTENTION URGENTLY.

5. Fire Fighting Measures

Hazards Evacuate area immediately. Keep up wind. Avoid exposure to toxic vapours and fumes. Fire-

fighters should wear protective clothing and breathing apparatus. Vapour-air mixtures are

explosive.

Extinguishing Water spray, alcohol resistant foam, dry powder or carbon dioxide. Use water spray to keep Media

fire exposed containers cool.

Unsuitable

Do not use water jet.

Media

6. Accidental Release Measures

Ensure no sources of ignition. Avoid breathing vapour. Use approved personal protective Personal Protection equipment. Evacuate area immediately. Do not allow general use of area until it is safe to

do so. Beware : vapour is heavier than air and will tend to accumulate at low spots.

Enviromental Keep material out of sewers, storm drains, surface waters and soil. Notify the

Environmental Agency and local Environmental Health Officer if major spillage occurs.

Contain and absorb on inert material. Transfer absorbent to salvage container for removal. Major Spillage

Wash area down with copious amounts of water.

Contain and absorb on inert material. Transfer absorbent to container for removal. Allow Minor Spillage

solvent to evaporate in remote area, then dispose of absorbent as solid chemical waste.

Wash area down with copious amounts of water.

7. Storage & Handling

Handling Precautions All transfer systems should be earthed to prevent accumulation of static electricity. Avoid

contact with skin and eyes. Do not breath vapours. Do not allow to contaminate clothing.

Ensure Local Exhaust Ventilation maintains vapour concentrations below the recommended

Well ventilated, cool, dry storage . Protect from direct sun and store away from sources of Storage Conditions

ignition. Keep containers closed when not in use. Keep well separated from oxidising

8.1 Workplace Exposure Limits

Component	CAS No	Workplace Exposure Limits		Maximum Exposure Limits	
		Long Term	Short Term	Long Term	Short Term
		ppm mg m–3	ppm mg m-3	ppm mg m–3	ppm mg m-3
Propan-2-ol	67-63-0	400.0 999.0	500.0 1250		

8.2 Personal Protection

Respiratory Use L.E.V. or natural ventilation to maintain vapour concentrations below exposure limits.

If not, use a well maintained chemical cartridge organic vapour respirator, or use self

contained breathing apparatus.

Hands Use solvent resistant gloves.

Use chemical splash proof glasses or goggles. Eyes

Avoid contact with skin. If skin contact or contamination of clothing is likely, protective Skin

clothing must be worn.

9. Physical & Chemical Properties

Clear colourless liquid.

Fresh and characteristic. Odour Not available рН

82.2 °C Boiling point 89.5- °C Melting point

12.0 °C(Closed cup) Flash point 12.0 %

Upper Flammable Limit Lower Flammable Limit 2.0 % 460.0 °C Auto Tanition

Explosive properties Moderate/severe in confined spaces.

Oxidising Properties No.

31.2 mmHg @ 20,C

Vapour Presure Relative Density 0.7863

Water Solubility Completely miscible in water.

10. Stability & Reactivity

Chemical Stability Stable under normal conditions

Conditions to Avoid Hot surfaces, naked flames or other sources of ignition.

10. Stability & Reactivity (continued)

Materials to Avoid Strong oxidising agents. Nitric acid. Silver nitrate, potassium perchlorate, chromyl

chloride, chromium trioxide and permanganic acid. Peroxides, potassium permanganate, sodium,

potassium, platinum, potassium tertiary butoxide.

Hazardous

None unusual. Burning will produce smoke, carbon monoxide and/or carbon dioxide.

Decomposition Products

11. Toxicological Information

Eyes Both the vapour and liquid may, be irritating to the eyes. High concentrations of vapour

may produce conjunctival irritation and corneal damage.

Skin Repeated or prolonged contact may defat the skin producing irritation and dermatitis. Many

of the effects typical of the vapour can result from absorbtion through the skin.

LD50 Skin Rabbit 12800 mg/Kg

Ingest Low order of acute toxicity. Ingestion of large amounts will produce central nervous system

depression. Ingestion will cause similar effects to inhalation.

LD50 Ingest Oral Rat 5840 mg/kg

Inhalation Exposure to vapour concentrations above the occupational exposure limits will produce

irritation of the eyes and respiratory tract. High concentrations of vapour may effect the

central nervous system acting as a narcotic.

Carcinogenicity Not considered to be a carcinogen.

Mutagenicity Not considered to be a mutagen.

Reproductive Effects None identified.

12. Ecological

LC50, 96hr, fish 9600 mg/l; EC50, 24hr, Daphnia >10000 mg/l; Readily bio-degraded in the environment.

13. Disposal Considerations

waste. Never dispose of into water courses or sewerage systems due to high risk of

explosion.

Contaminated Packaging Use a licensed waste disposer. Do not attempt to burn any residual liquids due to risk of

explosion.

14. Transport Information

Proper Shipping Name Isopropanol

UN Number 1219 UN Classification 3

3 Flammable liquid

Subsidiary Risk Nor

None

Flash Point

Packing Group

12.0 °C(Closed cup)

Transport Category
Marine pollutant
ADB Hazard ID

II 2 No 33

15. Regulatory Information

Labelling Highly Flammable, Irritant.

Classification

Label Symbols

Xi

15. Regulatory Information (continued)

Risk & safety Phrases

Highly flammable. Irritating to eyes. Vapours may cause drowsiness and dizziness. Keep out of reach of children. Keep container tightly closed. Keep away from sources of ignition - No Smoking. Avoid contact with skin and eyes. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

EEC Number 200-661-7

16. Other Information

Document Information

This document has been prepared in accordance with directive 88/379/EEC.

The information contained in this document only covers the hazards presented by this material, it DOES NOT constitute a workplace risk assessment.
