

DIRECTIONS TO PATTERSON SCIENTIFIC FROM THE A14

from the South

Leave the A14 at the Barhill exit (Junction 29), take the 3rd exit on the roundabout, signposted Earith B1050.

Go over the A14 and take the 1st exit on the roundabout. After about 1.2 miles take the 1st exit on the next roundabout and continue to the next roundabout. Again take the 1st exit and then take the first right.

Travel along this narrow country road passing a BT mast and Windmill on your right. As you go over the Guided Busway you will find Over Industrial Park (Norman Way Industrial Estate) on your left after the traffic restriction. Patterson Scientific is in the Camlab building.

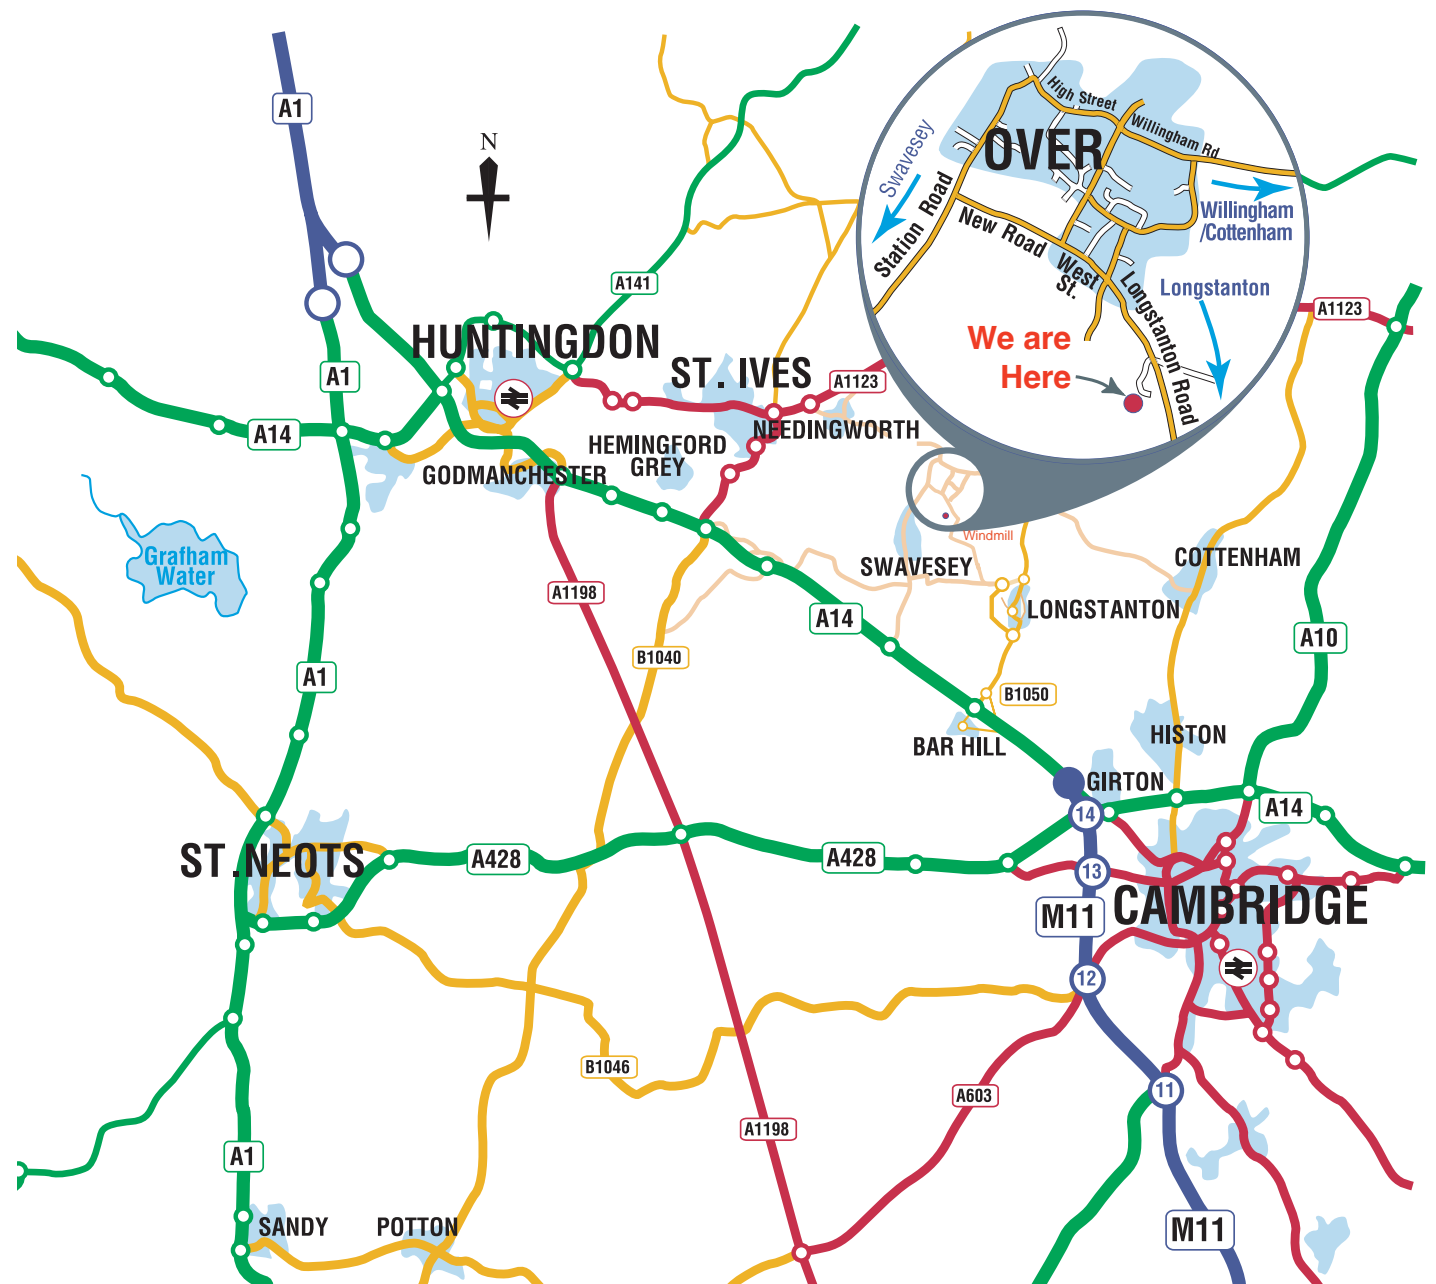

from the North

Leave the A14 at the Swavesey exit (Junction 28) and drive to and through Swavesey towards Over. You will cross over the guided busway as you come out of Swavesey and you then need to take the next right just as you get to the outskirts of Over.

Continue through the traffic restriction and continue on about 3/4 of a mile down this road. You will pass a small pond on your left and Over Industrial Park (Norman Way Industrial Estate) is on your right. You have gone too far if you reach the second traffic restriction. Pattersons Scientific is in the Camlab Building.
