

PoolPro Professional

This field proven software is used by numerous universities, major well known water attractions, and service companies

Palintest Pool Pro Software is a Windows based application for commercial pool operations and pool service companies that has been created to analyze water quality chemistry and maintain:

- Numerous reports
- History
- Calculations
- Scheduling with reminders
- Logs necessary to optimize pool operations and maintenance
- Supports 100 pools/spas
- Unlimited Data Base Size
- And More

It is completely configurable for chemical treatment preferences and pool or spa sizing. Water balance (Saturation Indexes) and proper chemical treatment and sequence are detailed.
