Camlab partners with the Kimberly Clark RightCycle Program which helps you to reach your organisations sustainability goals. Give your used nitrile gloves and apparel a new life by aiding in the creation of eco-responsible consumer goods like flower pots, patio furniture and plastic shelving. Divert waste from the landfill in support of zero waste to landfill goals.

Helping you choose the safest option

We know there is a bewildering choice of products available in the safety market today, which is why we take care to ensure our customers are using the right product for the job. Our specialists will make sure they understand your application, recommend the best product and assist with post purchase.
