

Precision temperature sensors for SWAN transmitters.
The sensor type used depends on the transmitter model.

Swansensor NT5K
Swansensor Pt100
Swansensor Pt1000

Specifications

Sample temperature:	up to 100 °C
Sample pressure:	up to 10 bar at 25 °C up to 5 bar at ≥ 80 °C
Material:	stainless steel 1.4435, SS 316L
Connection:	PG13.5, screw plug
Protection degree:	IP 68

Swansensor NT5K / Pt100 / Pt1000

Order numbers:

A-87.020.200	Swansensor NT5K precision temperature sensor
A-87.010.200	Swansensor Pt 100 precision temperature sensor
A-87.030.200	Swansensor Pt 1000 precision temperature sensor

Cables for above temperature sensors:

A-88.131.120	Sensor cable (sleeves/screw plug), 1 m
A-88.131.520	Sensor cable (sleeves/screw plug), 5 m
A-88.131.620	Sensor cable (sleeves/screw plug), 10 m
A-88.131.720	Sensor cable (sleeves/screw plug), 15 m
