

New Catalogue Layout

Multiparameter
Instruments & Kits

Single Parameter
Instruments & Kits A-Z

On-Line
Monitors/Analysers A-Z

Laboratory &
Support Equipment A-Z

Following customer feedback and to make it easier to find what you're

looking for, we have changed the layout of our catalogue this year. You will now be able to find products according to the parameter you want to measure e.g. chlorine, nitrate in one of the four sections above. If you cannot find the product you want the first time then you can refer to our comprehensive alphabetical and part number index's at the back of the catalogue.

Camlab Choice

Our commitment to you is to continually source and supply high-quality, good value products to meet your individual needs. As well as the major brands you will also find our own branded products with additional unique features approved by our own technical engineers. Other alternative brands are also available to suit your specific technical or budget requirements. Look for the latest additions to our Camlab range.

Our own service team

Camlab is a well known, Cambridge based company with over 55 years experience of providing instrument service and calibration to the industrial, laboratory and water sectors in the UK. Our field based and workshop engineers are factory trained or are the approved agents for many of these well known brands. We can provide you with installation, preventative maintenance, calibration certification and emergency repairs when required. If you wish to take advantage of these services at competitive rates then contact us on **01954 233130** or email us at service@camlab.co.uk to obtain a quotation and further information.

Installation and Calibration

Are you ordering a large item that you would like professionally commissioned? Do you need IQ/OQ/PQ certification? If so then Camlab has the expertise and engineers to arrange this for you. We can dispose of your old equipment in compliance with WEEE regulations. We can calibrate and certify most equipment to traceable standards at any time or as part of the initial purchase according to your needs.

People are the difference

At Camlab we understand the importance of good service and personal contact when working with our customers to achieve good value solutions. Our experienced field based Technical Sales and Technical Support Specialists will provide you with the right product choices and service options, whilst our dedicated Customer Sales Team is specifically trained to deal with all aspects of your order quickly and efficiently. After the sale we will continue to look after you and ensure that your satisfaction level remains high.

Lifetime Support and Warranty

We test all new products, inspect all deliveries and record the serial numbers of all instruments sold by Camlab. This allows us to ensure that you are receiving high quality goods and we will inform you of any upgrades, software changes, product recalls warranty renewals or calibration requirements. Extended warranties are available on request.
