

Ammonium/Arsenic/Ascorbic Acid

Hach Cube Kit

Simple to use colour comparison kit complete with reagents for 25 tests, instructions and carrying case.

Measuring range: 0 – 2.5mg/l as NH₃-N for freshwater in steps of 0.5

Chemistry: Nessler reagent.

Reference: HH/12524-00 £24.30

Hach Cube Kit

Simple to use colour comparison kit complete with reagents and instructions

Measuring range: 0 – 0.8mg/l as NH₃-N for freshwater in steps of 0.2

Chemistry: Salicylate

Reference: HH/22669-00 £34.80

Quantofix Test Papers for Ammonium

Easy to use test papers supplied in boxes of 100

Graduations: 0-10-25-50-100-200-400 mg/l as NH₄⁺

Reference: MN/913.15 £28.00

Ammonia Ion Selective Electrode

Suitable for any pH/ISE meter,
BNC adapters available if required

For ISE electrodes
see page 198

ARSENIC

Quantofix Test Papers for Arsenic 10

Easy to use test papers supplied in boxes of 100

Graduations: 0-0.01-0.025-0.05-0.1-0.5 mg/l as As³⁺/5⁺

Reference: MN/913.34 £46.00

Quantofix Test Papers for Arsenic 50

Easy to use test papers supplied in boxes of 100

Graduations: 0-0.05-0.1-0.5-1.0-1.7-3.0 mg/l as As³⁺/5⁺

Reference: MN/913.32 £44.00

ASCORBIC ACID

Quantofix Test Papers for Ascorbic Acid

Easy to use test papers supplied in boxes of 100

Graduations: 0-50-100-200-300-500-1000-2000 mg/l
as Vitamin C

Reference: MN/913.14 £19.00
